Aceso Interactive has collaborated with Swedish Medical Center Issaquah and the ArtEAST Art Center, to showcase a traveling art exhibit intended to examine the stigma toward mental illness. "The Incredible Intensity of Just Being Human" features the mixed media work of 26 Pacific Northwest artists exploring the perspectives and obstacles of living with various mental illnesses, from

anxiety to bipolar disorder, dissociation, depression and others. Aceso, together with curator Kate Vrijmoet, produced a 10 minute program of images, memes, announcements and video which is displayed on the Issaquah Medical Center lobby's 12-screen video wall. An opening reception will be held Friday, April 29, 2016 in the Issaquah Senior Center followed by a reception at artEAST Art Center.
